PROFESSIONAL SUMMARY

Recent Artificial Intelligence & Machine Learning graduate (B.E.) with strong knowledge of **Python, SQL, Excel, Data Analysis, Machine Learning, and Deep Learning**. Experienced in developing AI-based solutions including an **Eye-Tracking Proctoring System** and **Handwritten Prescription OCR**. Currently pursuing a **Data Analyst course at Code Lab Systems**, gaining hands-on experience in Excel, SQL, Python, data cleaning, exploratory data analysis, and data visualization.

TECHNICAL SKILLS

Programming	Python, SQL, Excel, Django
Data Analytics	Pandas, NumPy, Data Cleaning, EDA, Data Visualization
AI & Machine Learning	Machine Learning, Deep Learning, Computer Vision, CNN, Regression
Web & Tools	Flask, OpenCV, TensorFlow, Keras, Scikit-learn, Git, GitHub, Jupyter Notebook

CURRENT TRAINING

Data Analyst Course – Code Lab Systems | Currently Pursuing

- Developing practical skills in **Excel, SQL, and Python** for data analysis and reporting.
- Working with datasets for **data cleaning, analysis, and visualization**.
- Practicing SQL queries and Python-based data analysis to extract meaningful insights.

KEY PROJECTS

AI-Powered Eye-Tracking Proctoring System | Academic Project

- Developed an exam security system using **Python, Dlib, and OpenCV**.
- Implemented **68-point facial landmark detection** to track gaze vectors and head movements in real time.
- Achieved **95% accuracy** in detecting suspicious head movements during testing.
- Designed automated violation logging and auto-submission protocols.

Handwritten Prescription Recognition System (OCR) | Academic Project

- Developed and trained a **CNN model** to recognize handwritten medical prescriptions.
- Preprocessed medical images using **thresholding and data augmentation**.
- Developed a digital interface for prescription digitization to assist in reducing manual transcription errors.

Real Estate Price Predictor | AI & Machine Learning Project

- Developed a property price prediction model using **Ridge, Lasso, and Random Forest** regression.
- Performed data preprocessing and model evaluation to improve prediction accuracy.
- Deployed the model using **Flask and HTML** for real-time price estimation.

EDUCATION

B.E. in Artificial Intelligence and Machine Learning | 2021 – 2025

Vivekananda College of Engineering & Technology, Puttur | CGPA: **7.39**

Pre-University Course (PCMB) | 2019 – 2021

Government PU College, Sringeri | Percentage: **76.83%**

CERTIFICATIONS

- **IBM CEP:** Advanced Real Estate Valuation with Ensemble Regression Models – April 2025
- **Rooman Technologies / VTU Internship Program (Skill India):** AI & Machine Learning Engineer – Grade A; completed a 6-month specialized engineering program with practical experience in machine learning, real estate price prediction, Flask deployment, and SDLC.
- **Wadhvani Foundation:** Life Skills (Jeevan Kaushal) 2.0
